

1.How to Use the Toilet

Do NOT Flush Anything

Flushing without water will clog the toilet.

Broken pipes from the earthquake may cause sewage leaks or backflow.

2.How to Use the Toilet

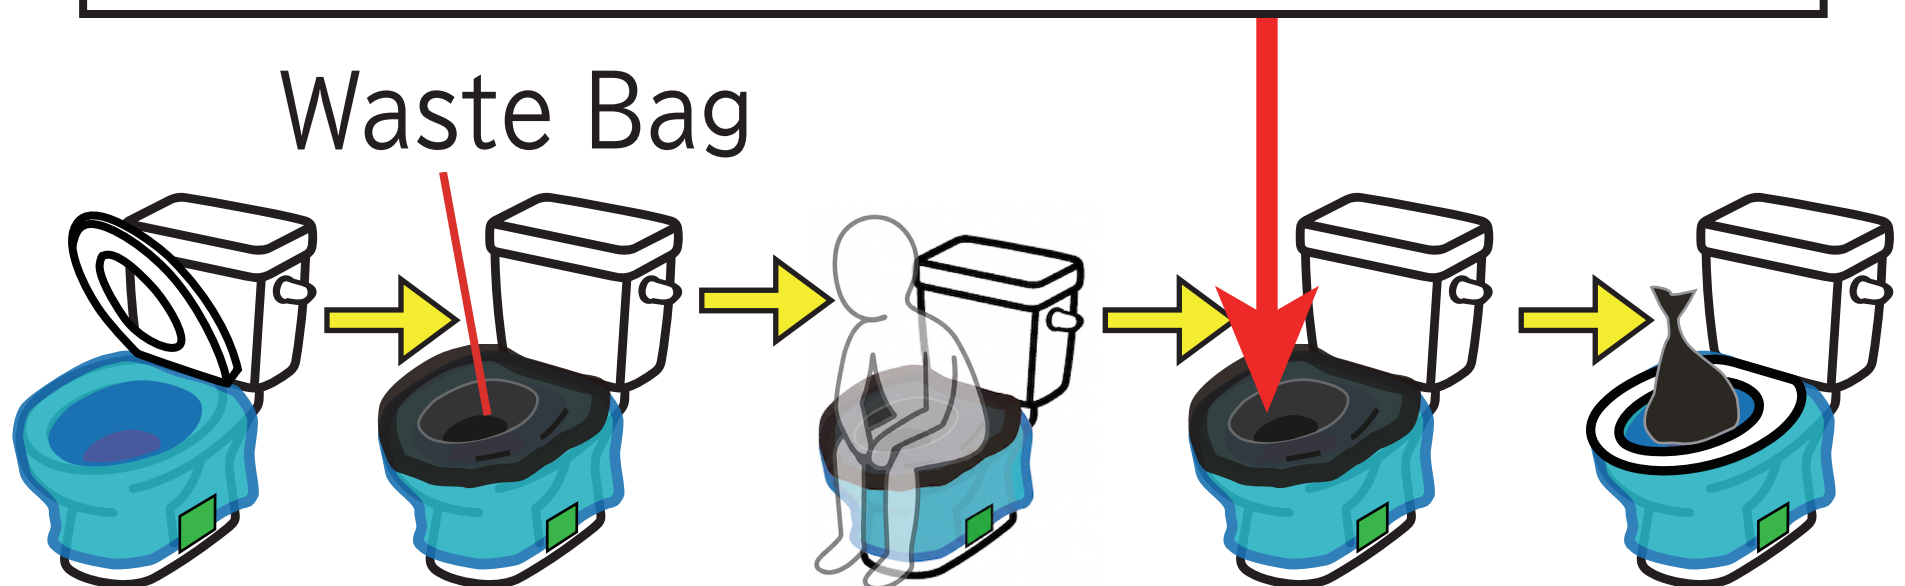

Set a waste bag on the toilet before use.

Throw directly into the bag

Used toilet paper

Used tissues

Diapers, pads, and sanitary napkins

Men: Please sit down to urinate.

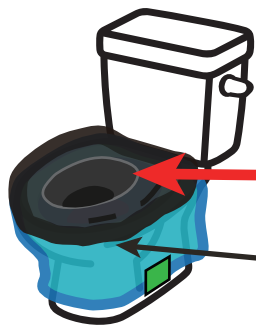

3.How to Use the Toilet

Prep: Lift the seat and cover the bowl with a large 45L bag.

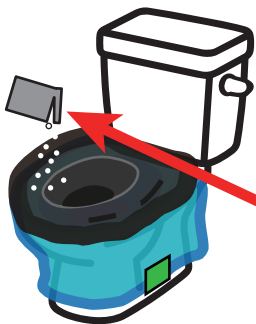

1.Put a waste bag over the seat.

Waste Bag: Tuck the bag under the seat to secure it.

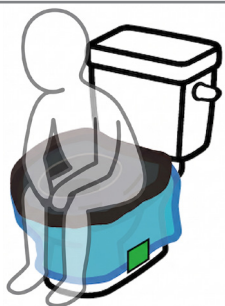

Base Bag: This keeps the waste bag from getting wet.

2.Add 1 pack of coagulant powder.

Coagulant powder

3.Use the toilet.

Throw toilet paper into the bag too.

4.Remove **ONLY the waste bag.** Gently press the air out and tie the bag tightly.

Keep the base bag in place, but change if dirty.

5.Throw the waste bag into the trash bin.

Matsudo City Burnable Trash Bag (30L)

Put a trash bag in advance.

6.Set a new waste bag for the next person.

7.Change the trash bag when full.
